...not;Our customers are viewing the decimalization mandate by the SEC as an opportunity to assess their trading systems, develop new service models and build systems that will deliver powerful competitive...

...not;

Decimalization and Performance

Decimalization will significantly decrease the minimum price variation (MPV) at which securities will be quoted and traded. As investors alter their trading strategies to take advantage of...

...systems will dramatically increase both in volume and frequency. A recent report commissioned by the Securities Industry Associations (SIA) predicts that by 2001, messaging volumes in security trading systems will rise sharply more than double in the area of listed securities trades and over eight times higher in options messages.

Decimalization is the process of converting...

...on a phased-in approach. A phased approach might start with a limited number of securities and trading in increments as low as \$.05. This would be expanded to include all exchange-traded equities and options on equities, and finally quoting and trading all securities in \$.01 increments. Plans for phased-in conversion greatly increase complexity, since firms will have...

...decimalized and fractional pricing during the conversion period and have the capability to switch individual securities from one conversion to the other.

TEXT:

NEW YORK, Aug. 13 /PRNewswire/ -- In an alliance to meet global securities identification needs through the next century, Standard & Poor's and Telekurs (USA) have expanded ISIDPlus...

...the 100-year financial tradition of Standard & Poor's and nearly 70 years of global securities expertise of Telekurs.

ISIDPlus is the most comprehensive global securities cross-reference product available on the market today. Coverage extends to over 380,000 securities and 30 national and international numbering systems, such as Common Code, SEDOL, Valor, WPK, etc. ISIDPlus features the CUSIP International Numbering System (CINS) with cross reference to ISIN (International Securities Identification Number). For securities affected by the European Monetary Union, Telekurs and Standard & Poor's have added a new...

...security into euro results in a new security identification number. This will occur if original securities are no longer fungible. Used in combination, these features are critical tools for efficient portfolio...

...including dealers, mutual funds, banks, insurance companies, pension fund managers and custodians who need to assess their domestic and international portfolio holdings.

"If your portfolios include securities issued by participants in the European Monetary Union, you could be at risk," said Barry...

...Stamford, CT. "At the stroke of midnight, December 31, 1998 more than 200,000 eligible securities may be effected by the euro. Do you know which securities will be impacted? And how? And when?"

James D. Taylor, vice president and general manager...

...added, "ISIDPlus is 'Year 2000' compliant and is a vital link for a company's Straight Through Processing (STP) initiatives. ISIDPlus also features a single format for master file and update files which...

...relational database format."

The proven partnership of Standard & Poor's and Telekurs, worldwide leaders in securities identification and numbering, provides additional services segmented by geographic regions and securities types. These innovative new products include: Symbols & Exchanges, NSIN Announced Actions, End-of-Day Prices...

...cope with the unpredictability of financial markets.

Proponents say these tools will help insurers better assess the bewildering array of increasingly complex financial products and changing interest rates. As well, they...

...results is also reflected in a recent study of insurance company chief information officers by securities firm Goldman, Sachs and Co. According to that study, the top three concerns of life...

...in most cases, insurers invest primarily in fixed income assets, such as bonds, mortgage backed securities and other less volatile investments.

In part that's because state insurance laws and regulations...

...stocks to 10% or less.

"Insurance companies are heavily limited as to what type of securities they can buy," says Linde Hartley, vice president, investment accounting products and services, Sungard Insurance...

...example, invests 10% to 20% in equities and convertibles, says Larry Luxenburg, vice president, equity securities, for the New York-based insurer. And all insurers try to maximize their investment returns...to invest, to what extent they should invest in particular asset classes and even which securities to invest in.

Applied Quantitative Solutions L.L.C., an Austin, Texas, software firm, has developed software that can evaluate thousands of securities in real time and recommend asset allocations that are specific to client investment guidelines and...

...a program and looks at investments that match the right criteria and a combination of securities that meet the insurer's objectives," White explains. It then recommends the specific securities an insurer should invest in. "It makes recommendations as to where the money should go...

...various asset classes, but it stops short of recommending which particular stocks, bonds or other securities the company should select. Although the technology provides direction for investment management, "you still need...

...company based in Minneapolis. "You can't warehouse all the data or the universe of securities any longer -- if you ever could."

The Internet is a great alternative: it gives insurance companies access to a virtually unlimited data warehouse of particular securities and security types. And, it works well with effective investment management technologies.

LifeUSA uses BondEdge...

...income portfolio analytics and risk management system that provides a comprehensive database of fixed income securities. It also provides specialized models for municipal portfolios, money market instruments, preferred stocks and private...

...flow portfolio with its liabilities. The company relies on the Internet and BondEdge to locate securities with cash flow characteristics that match its investment strategy.

"Through technology, you can do this...been executed. Front-office functions, meanwhile, involve the actual trading or buying and selling of securities. Insurers tend not to invest in front-office technology because, except for the very largest...

...yet."

A few vendors are beginning to respond. SS&C, for example, came out with "straight-through processing," a technology that connects various systems. "The processing is all done without touching human hands...

...with decimalization and T+1, while development of industry-wide STP initiatives--from the Global Straight Through Processing Association and The Depository Trust & Clearing Corp./Thomson Financial ESG joint venture--have been plowing ahead, said Arthur Thomas, chief operating officer of Merrill Lynch's securities services division. In addition, electronic communication networks have started to see an increase in volume,

... has also been revised, with 2004 widely considered a more feasible date for completing the straight - through processing projects, both within and between firms, necessary to make it happen.

Firms also continued to early in the year. According to figures from the Securities Industry Association, all markets surpassed previous volume records, with the New York Stock Exchange expected...

...to create a European central counterparty and the go-slow approach among Europe's central securities depositories toward further consolidation. The European infrastructure is currently too fragmented, which is liable to ...that have kept operations professionals at the forefront of the charge toward a more efficient securities industry.

BROKER/DEALERS

Y2K MELTDOWN? NO PROBLEM

The months leading up to the new millennium...went off without a hitch, said Arthur Thomas, chief operating officer of Merrill Lynch's securities services division. With the Y2K systems freeze left behind, the industry began to look forward...add online access to confirmations and statements for its correspondent customers (OM, 9/4).

* Refco Securities was also starting to offer securities transaction reports through its Web site (OM, 4/17).

* Fiserv Securities was developing online account inquiry, clearing and execution abilities (OM, 1/24).

* Wexford Clearing ...PROGRESS

Decimalization was one of the key industry initiatives planned for the year. At the Securities Industry Association's Decimalization Implementation Conference in New York in March, attendees voiced concerns on...profile executive switches included Paul Pricoli, former managing director and head of operations with HSBC Securities (USA), who moved to online broker/dealer Trade.com (OM, 4/24), and Joseph Lodato, who resigned as managing director of Banc of America Securities to join Internet firm Universal Network Exchange (OM, 10/16).

More troubling was the industry...same qualified personnel (OM, 3/13). Bob Beriault, president and chief operating officer of Fiserv Securities Processing Group, said in May his company would hire as many operations personnel as walked...

...the door (OM, 5/29). Other firms undertaking big recruitment drives included Banc of America Securities (OM, 1/31), First Clearing Corp. (OM, 2/14) and Instinet Clearing Services (OM...platforms for separately managed accounts.

TAKING THE MIDDLE ROAD

Fund managers attempting to create a straight - through processing environment showed an ongoing proclivity toward middleware to link disparate front-and back-office systems...OM, 9/18) and Oppenheimer Capital (OM, 2/14) all opted for Electra Information Systems' Securities Transaction and Asset Reconciliation System and Custodian Reconciliation Data Collection Service. AMVESCAP (OM, 7/31...more efficient processing in 2001, noted Richard Crews, head of technical services at Citibank Worldwide Securities Services.

CUSTODY

NET PRACTICE

Industry officials at the Global Custody 2000 Conference in the Spring...focused on accessibility through a single portal (OM, 3/27, 11/6). Mellon Trust Global Securities Services (OM, 10/2) and Fifth Third Bank Securities Services Group presented their respective Workbench stations to provide clients with Internet-based real-time...

...of New York also launched portals geared toward offering investment managers reporting solutions. Citibank Worldwide Securities Services, meanwhile, fired up planning for an Internet service for international custody clients that would...the newer markets, to service the growing investor population, said John Gubert, head of Group Securities Services at HSBC Holdings, in an interview with OM in November (OM, 11/27). 11/27).

While last year's custody alliance between Bank Austria-Creditanstalt Group's Global Securities Services and BNP ... Mellon Trust's technology platform as part of the creation of ABN AMRO

Global Asset Securities Services was completed successfully (OM, 8/28). BoNY, meanwhile, was having some digestion problems from National Securities Clearing Corp. progressing, The Depository Trust & Clearing Corp. was seeking to take a more proactive...Thomson Financial ESG to develop a global trade processing system in competition with the Global Straight Through Processing Association (OM, 5/1). Despite the occupation of rival positions, "interoperability" is the public position... instead acts as an incentive," said Arthur Thomas, chief operating officer of Merrill Lynch's securities services division and member of the GSTPA's executive committee.

With development of the TFM...transactions and reducing settlement times (OM, 12/4).

GET REAL

The main innovation for Government Securities Clearing Corp. during the year was the development of an interface to allow member firms ...the creation of a single central European counterparty, noted Pen Kent, director of the European Securities Forum. Euroclear, CIK, the Belgian central securities depository, and Necigef, the Dutch CSD, did announce less dramatic consolidation in the sector, with...the move to shorten settlement times and improve settlement efficiency gathered pace as the International Securities Services Association published fresh recommendations on securities clearance and settlement (OM, 6/5), just as the Japanese Ministry of Finance proposed wide...on the agenda for 2001. Abetting the T+1 initiative are ongoing projects to create straight - through processing environments, both within and between firms. Meanwhile, the introduction and expansion of online services continue... U.S. operations

Barclays Global Investors

In 2001, the industry will continue its focus on straight - through processing, which will center around preparation for shortened settlement cycles, despite the postponement of T+1...fund managers will evaluate existing platforms to determine how they can best be adapted, while assessing other available solutions. The developments and progress of the Global Straight Through Processing Association and The Depository Trust & Clearing Corp./Thomson Financial ESG joint venture will be watched...must prepare their systems and operations to implement the new requirements.

Anticipating the inevitable, the Securities and Exchange Commission has issued a proposed rule that will require mutual funds to disclose like securities based on a portfolio of shares, have also been experiencing tremendous growth. Exchange-traded funds...the spot forex market, which operates on a T+2 basis.

The redefining of International Securities Association for Institutional Trade Communication has been a success of 2000 and a future challenge of 2001. ISITC is a global working committee of securities operations professionals representing custodian banks, investment managers, brokers, and vendors that aims to foster alliances and advocate standards that promote straight - through processing of securities transactions. The body must deliver views and opinions to the industry on issues such as...product solutions to investors. Chase's custody product suite has already been extended to include securities lending and foreign exchange; ...all custodians should follow.

Charles Cock

Head of multi-direct clearing and custody

BNP Paribas Securities Services

(Paris)

In the current European operations industry debate, center stage has been taken by the exchanges, international central securities depositories and national CSDs. If a truly regional European market is to be secured however...finalizing the decision on moving to combined

settlement for The Depository Trust Co. and National Securities Clearing Corp., supporting multi-cycle output of trade data to participants by mid-year, and...across Europe should be top of everyone's agenda for 2001.

Francis Remade

Head of securities division and member of the executive board
SWIFT

(Brussels, Belgium)

The trend towards straight - through processing , on the road to T+1, will be utmost on the minds of our clients...

Q&A

Operations Management, v4, n31, pN/A

August 3, 1998

Language: English Record Type: Fulltext

Document Type: Newsletter; Trade

Word Count: 767

... under custody He oversees 2,100 people in more than 80 countries who work in securities operations, including the domestic processing units in New York and global operations in Bournemouth, England; the global customer service and accounting unit; and client delivery and securities lending. He has worked at Chase for 21 years,

and has held various positions including Broker Loan Manager and Global Securities Trading Operations & Systems Executive.

What comprises Chase Global Investor Services?

Our business does much more...

...portfolio accounting, performance analytics on those portfolios and compliance for the different portfolios. We offer securities lending, foreign exchange and futures clearing. We work with our clients in a collaborative effort...

...up the Global Technology Architecture (GTA) to better position ourselves for changing industry activities, global straight - through exception processing and the addition of value-added products. This helps us better position ourselves for this...

...to offer real-time and pretrade compliance and value-at-risk, another trading tool that assesses relative risk in the marketplace. Without any significant future restructuring, the new system architecture better...

...clearing system from Chemical was far superior to ours, but we decided to retain the securities lending and accounting applications from Chase. We also chose the Chase suite of applications for...

...the euro, as well as future investments that will be called upon to handle global straight - through exception processing and to shorten the settlement cycle, and as you look at smaller players, it becomes...

...the turbulence from a capital standpoint. Small- to medium-size players will really have to assess whether it makes sense for them to stay in

the business.

Will Chase continue to acquire custodial banks to remain competitive?

I'd say that we are constantly assessing the environment and different

alternatives. As we look our into the marketplace, we are looking...

...to round out our product offerings. There are many different types of firms we are assessing : besides custodial

banks we are looking at information companies and performance analytic companies. To maintain...
